Jelle and Janneke Huisman (*Reformed Episcopal Board of Foreign Missions*)

Europe is changing rapidly; we see that in the university town of Wageningen. Many young Europeans know nothing about Christianity. We meet people who long for fulfillment and peace, who seek truth and meaning in all the wrong places. Many don't consider the church, simply because they don't know what it is there for. We want to change this.

We are Jelle and Janneke Huisman, and we (1) walk with people, (2) learn together from Scripture, and (3) provide hospitality in various forms. *We want more people to have "Emmaus Road" experiences in Europe today.* Will you join us?

As missionaries of the Reformed Episcopal Church, we work with teams in England, Germany, and Croatia. Jelle serves as *missiologist* for the European province, while Janneke is the *member-care coordinator*. This is what we do in 2026:

- the **launch of the *Anglican Way in Europe***, *a learning and formation ministry* that seeks to bring Reformed Episcopal ministry to all of Europe. For 2027 we are organising several events (online and local) exploring the work of **C.S. Lewis**.
- **Church-planting teams** in the UK, Germany and Croatia. Together with Canon Michael Vinson, Jelle helps teams develop practical strategies for their region.
- In 2026 we contributed to the **relaunch of Knüll Camp** and in 2027 we continue to invest in the work in Germany. Janneke does this with her member-care experience and as the host of quiet writing **retreats** for international guests,
- while Jelle **finishes his PhD** in missiology (about Bible translation for muslims)

Will you join us in this strategic ministry? Our monthly budget is $ 5000,- half of which is covered by a part-time job. Will your parish partner with us at $250, $100, or $50 per month to fund the remaining part? Current fundraising goal: $2500/month.

Launching the *Anglican Way in Europe*

We are launching the *"Anglican Way in Europe"*, a learning and formation ministry that seeks to bring Reformed Episcopal ministry to all of Europe. Inspired by the *Anglican Way Institute* in Dallas, we seek to introduce the Anglican Way of life as a model for living out our mission in Europe. "*Anglicanism*" might be new to people, but in the Netherlands and Germany the historical connection with England goes back to the ministry of Saint Boniface.

Reading C.S. Lewis today

For 2027 we are organising several events (both online and local) exploring the work of C.S. Lewis. He is an Anglican held in high regard among Christians of different denominations across Europe. His works have been translated into most European languages, including Serbian. The events will include teaching, reading together, and discussion.

Resources for multiplication

The Anglican Way is more than an event, it is also a resource ministry. We invest in multiplication. The teaching material and handouts will be made available to other clergy, so that they can use these resources to start their own reading groups. The idea is to host the meetings in local RE parishes or missions, so that there is always a good opportunity for follow-up with participants.

Something more substantial

We believe that this is a real opportunity to engage with spiritual seekers who are looking for something more substantial than a spiritual quick-fix. Will your parish consider investing in this strategic opportunity? You can find more information online:
